CLAUER'S
JEWELRY STORENew Way to Curl Hair
Has Many Advantages

You will find the following to be a simple and excellent method of curling the hair. Apply a little liquid silicone with a clean tooth brush, drawing this down the full length of the hair. Then roll the hair in curls. In three hours let the hair down and you will be quite amazed at the result. You will have the prettiest curls and waves imaginable, altogether natural in appearance. Aside from this, the advantages of the silicone method are that the hair is curled so quickly that it remains in curl a long time, that it has such a lively sheen or lustre, and is so beautifully fluffy when combed out. A few ounces of liquid silicone from your druggist will last for weeks. It is of course perfectly harmless.—ADVT.

All social pleasures of the week have been put aside for the celebration of Indiana's centennial which after months and months of preparation was successfully opened yesterday. Clubs and church societies have, almost all of them without exception, been postponed because of the general interest taken by the members in the whole affair and which necessarily meant either the society or the pageant would be slighted and of course every one must witness the excellent presentation of the historical pageant which is to be repeated each night of the celebration. On last evening, the first night, the boxes were well filled with appreciative parties who thoroughly enjoyed every moment of the time. Many of the box-holders will make up their parties this evening or for Thursday the final night.

MAKING UP PALE EYEBROWS.

Some folks do not approve of make-up at all, and others admit that a little of it does not harm, while the majority will agree that it is a woman's birthright to be beautiful, and that if nature overlooked her, she may be excused when she resorts to false methods of obtaining it.

Nothing gives the face a more insipid expression than thin colorless eyebrows. By massaging the flesh lightly every night and with the faithful application of vaseline before retiring it has been proven that even the hopeless looking pale eyebrows will take on a new growth.

It is slow patient work however, and it may mean several months of massaging and vaseline applications to produce the slightest degree of eyebrow interest. In the meantime the eyebrows remain pale and insipid.

The purchase of an eyebrow pencil, which comes in all shades of brown and also black is the only solution for the problem. When using the pencil be very careful not to apply it too heavily, and special care should be taken to follow the curve of the eye. The pencil itself is made of a harmless greasy substance and can do no injury to coming growth of the eyebrows.

What the French Maid Told Marjorie

BY JANE LOWELL.

SOME COIFFURE ORNAMENTS.

"Marie, I am getting to be such a big woman now," began Marjorie. "Don't you think I might do my hair up with some ornament at least for the dance next week?"

"Why yes," agreed Marie. "Even for one as young as you I think a coiffure ornament at a dance would be appropriate."

"What would you suggest?" asked Marjorie very much pleased that Marie agreed with her longing to be a real woman.

"Rhinestone butterflies or colored spangles in all shades, are among the newest of coiffure ornaments, and mighty attractive they are in their scintillating daintiness," began Marie.

ANNOUNCEMENT.

Beginning October the 5th I will discontinue keeping my store open on Thursday evenings, from 6 to 9:30, as has been my custom in the past.

I have given this matter very careful thought and in consideration of the loyalty of my employees, I feel that after they have served me faithfully through the day, they are entitled to at least the freedom of five nights out of a week; therefore, my store will be open at night on Saturdays only.

I trust most sincerely that the public generally may accept of my decision in this matter in good faith. Acting as I have, not only have I meant to show a feeling of kindness for those whom I have connected with me, but I also mean to show a generous spirit, as a citizen of South Bend, to want to keep our city of 65,000 population up to the standard of 1916.

It must be admitted that the custom of keeping large stores open in the evenings, excepting Saturday, is old and ancient, and applies only to villages and not to cities.

Respectfully yours,

A. H. Heller
